URBAN SPORT NATURE PEOPLE NUDES ART& ENTERTAINMENT

GIANFRANCO BELLINI FOTOGRAFO

A B O U T

I enjoy taking pictures.

In every shot I put my culture, experience, knowledge and know-how of rules and how to break them, in order to create the best image to describe or to tell a story.

My name is Gianfranco Bellini and I am a photographer.

I do portraits, reportages, take pictures of landscapes, architecture. I create portfolios for models, I report events, enjoy wandering in the city looking for the best view and picture to take .

Some of my work has been displayed in Milan, Paris, Siena and Rome.

Urban

Urban Photography is a way to talk about life and the soul of the city.

I walk around the streets looking for landscapes, architecture, people that capture my attention.

Sport

Photographing sports does not only mean to seize a moment of the athlete's movement. I have chosen to talk about less important stories, those of the small sports clubs that do not make the national headlines, including the Paralympic sports.

But sometimes luck strikes and you happen to be at the right place in the right moment, on the field with Jamal Murray, one of the NBA stars!

Nature

I try to show nature's beauty. I photograph details and panoramas.

I try to capture the beauty that strikes me.

People

Photographing people is fascinating.

It's not easy to always capture an expression, a glimpse, a smile, but sometimes without any effort at all, it suddenly does happen.

However, often it is much more complicated. You need to listen, pay attention, have respect and the ability to create magic and reciprocal trust.

Nudes

Taking a picture of a nude woman is simply complicated.

You need technique, complicity, empathy, trust and respect.

Art & Entertainment

For me art and entertainment are connected to pleasure and beauty.

I put together theatre, dance, exhibitions, concerts and shows for my pleasure and I hope for yours as well.

Black & White

Color describes. Black and white tell a story.

Other explanations are not needed.
